M-AUDIO®
Transit Pro

Windows Driver Installation Instructions

1. Connect the **USB port** on Transit Pro to a USB port on your computer (powered on).

2. On Transit Pro, turn the **Volume** knob clockwise to power it on.

3. Inside the **M-Audio Transit Pro Driver** folder, double-click the **Setup** application. (If Windows displays a security warning, select **Run**.)

   The M-Audio Transit Pro Setup Wizard will open.

4. Follow the on-screen instructions to continue with the installation. (If Windows Security asks if you want to install the driver, select **Install**.)

   Once the installation starts, it may take several minutes.

5. When the installation is completed, select **Close** in the M-Audio Transit Pro Setup Wizard.

6. Restart your computer. You must do this for the driver to take effect.
